

WORKING TOGETHER FOR A CURE

Finding a cure for childhood brain cancer is no easy task. It will not be cured by one doctor, one institution, or one foundation's efforts. We believe a collaborative approach is the only way a cure will be found. Through our Family Partner program, we welcome other families interested in *actively fundraising* to support this mission.

KEY BENEFITS

- + The ability to help advance the mission without having to set up and manage your own 501c3
- + Treated as part of the foundation with access to exclusive events, research information, and business updates
- + Support for your fundraising efforts through prebuilt programs, sharing of best practices, and aid from staff
- + Opportunity to honor your child through a personalized website page and custom logo
- + Recognized as a Family Partner on the website, in press releases, in emails, and at events

BASE EXPECTATIONS

- + Commit to advancing the foundation's mission by striving to fundraise at least \$5,000 each calendar year
- + Engage as part of the foundation (e.g., participating in Family Partner meetings, sharing our social media content, attending foundation events, etc.)
- + Represent yourself as a ChadTough Defeat DIPG Family Partner
